

Let's Begin

Lightcast Networks

Innovative Ministry Technologies

Lightcast Networks

“An Interactive Communications Company”

Leveraging 45 Combined years of Innovative
backgrounds in Telecommunications, Audio
and Web Technology

Extending your Reach with Technology

Lightcast Networks

“Innovating Pastoral Technologies”

- **Virtual Church** – an audio connection between Remote-Bounds and their worship center
- **Lightcast Classroom** – an audio connection between Remote-Bounds and their classroom (listen only and 2-way)
- **Phone-A-Webcast** - Webcast your message
- **Lightcast Special Events** - allow access to special events e.g. weddings, graduations, theatre etc.

Lightcast Networks

The Joys of Inclusion

- **Caring** - discipleship
- **Community** - fellowship
- **Connected** - worship

Lightcast Networks

“I enjoyed it very much. It’s better than the tape ministry and easy to use. Can really hear it good”

Elvin Howell

“It’s just like I’m there. Of course, nothing can take the place of actually being at church but this is the next best thing. It’s wonderful to know my church cares enough to do this for me.”

Joan Brown

“I could never hear at church but this is wonderful. It’s so plain and clear and easy to use. I have really enjoyed it.”

Gillis Peacock

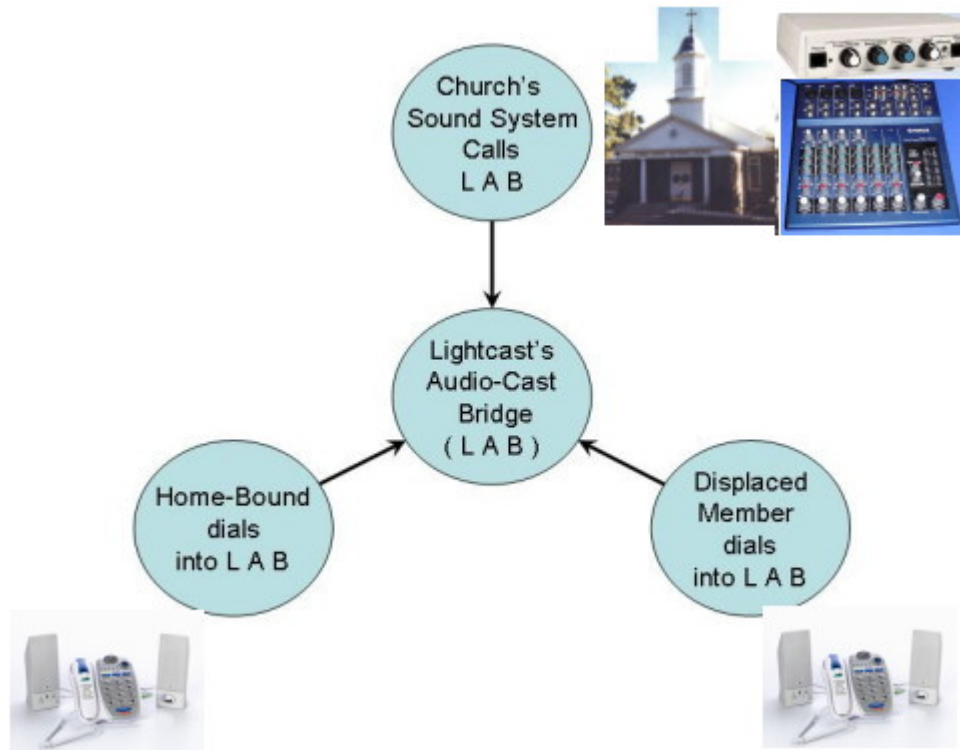

Call us to Listen to our Demonstration

You be the Judge

- The Church Interface connects to your sound system
- The Home Receiver Kit Press 2 buttons and listen to the Service from Home

Its Just This Easy

Lightcast Networks

“Intents and Initiatives”

- To provide simple and cost effective services for churches and religious organizations
- To innovate new, authentic and engaging services which create sense of permanence
- To provide genuine services with user friendly technologies
- To help facilitate symbiotic relationships

A Shadow Congregation among US

Statistics on those WHO CAN NOT be at their Church

- There are over 20 million people are in U.S. hospitals each year and over $\frac{1}{2}$ are Church members
- There are over 10 million people in nursing homes in the U.S. today and over $\frac{1}{2}$ were Church members but are now isolated
- There are approx 6 million chronic home-bounds in the U.S. and $\frac{1}{2}$ of them want to be at their church but are isolated
- There are approx 5 million temporary home-bounds in the U.S. and $\frac{1}{2}$ of them want to be at their church but are isolated

Innovative Methods

- Listen anywhere with cellular access
- Portable access from the Car
- The Classroom Connection

Innovative Methods

- Remote Two-Way Broadcasting
- Broadcast from anywhere with cellular access

Allow updates from Mission Trips, Church Camp
or

Let them listen to your Service while on Mission
Trips and Church Camp

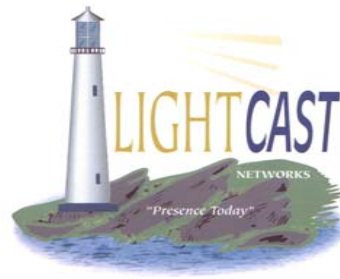

Why Real-Time Audio

- Create the Presence of nearly being there.
- Entitle remote-bounds to the comforting habit of Sunday worship service or classroom, on time.
- Provide a new emotional bond as the congregation feels the connection to the remote-bounds listening
- Mobilize your message

Phone-A-Webcast for Web Ministry

- Phone-A-Webcast is the simplest way to put your audio on the web.
- Phone-A-Webcast is one of the most cost effective ways to put your audio on the web.
- With this Lightcast service you simply dial in our network with a phone and password then begin your message. You will have a link to your message on your web page, our ask us to create a one page audio site.
- Now any message from home or office can be streamed over the Internet. Call for details.
